Local Government Solutions

PRESS RELEASE

Local Government Solutions, L.P. Announces Acquisition of CourTech Systems, Inc.

Houston, TX, November 30, 2010: Local Government Solutions (LGS) today announced that it has acquired all assets of CourTech Systems, Inc. of Abilene, Texas which includes its software product "Courthouse Assistant". Established in 1991, CourTech Systems today provides Court Case Management, Imaging Software, and Backup Services to over 30 county offices in Texas. When asked his thoughts about the acquisition Dr. Gary Rogers, CourTech's Founder stated, "I believe this is a tremendous opportunity for my customers". Dr. Rogers went on to say, "the LGS acquisition of CourTech gives my customers the assurance that their software needs will be taken care of long into the future and that they will now have access to a wider range of technologically up-to-date products and services, both now and in the future. I chose LGS because it has the expertise and resources to serve my customers well today and tomorrow". Under the terms of the agreement Dr. Rogers will remain with LGS in a consulting and support role for an unspecified period of time as he transitions from computer software entrepreneur to fulfilling his lifelong dream of becoming a published author.

"I understand this may come as a shock to CourTech's loyal customers, however, the management and staff of LGS want each of you to know that it is our objective to make this transition seamless", stated Ed Hazeldean, President of LGS. Mr. Hazeldean added, "To make certain every CourTech customer has the opportunity to ask questions, LGS will be conducting two conference calls early next week to allow CourTech clients to openly ask questions of the LGS Senior Management and Dr. Rogers. These calls will be followed by scheduled visits to each customer site in mid-January, 2011 to get to know each customer personally".

LGS will hold conference calls at 10:00 A.M. (CST) December 6, 2010 and again at 1:30 P.M. (CST). Conference call information can be obtained by visiting our website at <http://www.us-lgs.com>. The call will be archived for future rebroadcast.

Headquartered in Houston, TX, LGS is a leading solutions provider of browser-based Case Management and Records Management software and services for County Attorneys, District Attorneys, County Clerks, District Clerks, Collections, Court Administrators, and Court Judges. Through our affiliated sister companies LGS solutions provide integrated solutions for all aspects of County Government including Law Enforcement, Jail Management, Justice of the Peace, Tax Collection, Financials, Indigent Health Care, and Probation.
