# 2013 Users Conference Agenda At-A-Glance

The focus of the User Conference this year is **YOU**, the customer! Our staff is looking forward to providing you and your staff with in-depth trainings, creating user communities via open discussion groups, and facilitating one-on-one interaction with product teams or other conference attendees. Additionally we are excited to share news regarding projects our LGS development team has been working on over the past year. As always our staff brings plenty of fun, entertainment, and fantastic prizes to this once a year event. We look forward to seeing you there.
